OFFICE OF
THE DIRECTOR OF PUBLIC HEALTH
IN MYSORE
Bangalore, dated March 13, 1942

Ml 127-41-5

XXX

To
The Secretary to Government,
Law Department,
BANGALORE

SECY LAW DEPT 1 1942 GOVT OF MYSORE

Sir,

Adverting to Government Order No L 2474-77/Ml 167-42-2 dated 19th September 1941 sanctioning an estimate for Rs 1,600/- for putting up a barbed wire fencing around the pumping station at Belagola as it is declared to be a "protected place", I have the honour to state that the Sanitary Engineer with his No 1171 dated 31-1-1942 submitted to this office two tenders received for the work, one of Mr M R Mohamed Peer amounting to Rs 2,360-7-0 and the other of Mr Doraswamy Iyengar for Rs 1,515-5-0 (taking the estimated cost of Rs 950/- for angle iron posts which the contractor wants the Department to supply) This latter contractor proposes to use stone slab posts and the Sanitary Engineer recommends this in place of the angle iron posts as the cost of the work will amount to Rs 942-6-0 as against Rs 1,577/- provided in the estimate The present Sanitary Engineer is also in favour of the proposal to put up stone posts provided they are of good quality, uniform thickness and fairly well dressed Copies of letters from the Sanitary Engineer on the subject are enclosed

In view of the urgency I have this day accepted the recommendation of the Sanitary Engineer and instructed him to proceed with the work

I request you to be so good as to obtain and convey approval of Government to the material deviation involved and to the acceptance of tender involving such deviation

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

Letter No 1171 dated 31-1-1942 from the Sanitary Engineer, Bangalore to the Director of Public Health in Mysore, Bangalore

Re Barbed wire fencing to Belagola Pumping Station

I have the honour to state that an estimate amounting to Rs 1,600/- has been sanctioned for the above in Government Order No. 2474-77/M1 167-41-2 dated 19th September 1941, and tenders for the work were therefore called for

There were only two tenders received in response to the tender notification The estimate provides for fixing angle iron posts 2½" x 2½" x ¼" and laying barbed wire across them, and since this material viz , angle iron is not available readily in the market, one of the tenderers, viz , Mr Doraiswami Iyengar proposes to use stone slab posts, and if this alteration is accepted , the cost of the work will work out to be Rs 942-6-0 as against Rs 1,577/- provided in the estimate, while with the angle iron posts themselves the cost works out to Rs 1,672/- according to the tender of Mr Mohamed Peer The stone posts serve the purpose in place of the angle iron posts, and since the former are far cheaper, I propose to have the work executed with the use of stone posts, and since this results in material deviation from the sanctioned estimate, I request you to kindly approve of the deviation to enable the work being undertaken

---

Submission Note No 1320 dated 20-2-1942 from Mr C R Iyengar, Sanitary Engineer, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

The enclosed set of tender papers for providing barbed wire fencing to the Belagola Pumping Station is resubmitted with the the following

As stated by Mr K S H Rao, it will be very difficult to get steel for the work and very great delay will be caused by having to obtain licenses from the scheduled Officers Further, as per tenders received, the cost will also be inordinately high It is also usual to provide stone posts and wire fencing in such instances The quotation of Mr Doraiswami Iyengar is for 8 x 4" Dodballapur stone posts of 7 ft height The rate for this works out to be

P T O

be Re 0-6-6, which is reasonable It is anyhow essential to specify that the posts should be of good quality, uniform thickness and should be fairly well dressed and not merely roughly dressed If he is agreeable, his tender may be accepted
